Francisco because of its hills and its beauty. Visit the **Bahai Shrine**, overlooking the bustling port of Haifa and the commercial heart of the city with modern stores and restaurants. The journey continues to **Acre**, on the northern tip of Haifa Bay. The city is almost **4000 years old**. Because of its strategic geographical position Acre had several occupants throughout its history. From the Romans and the Crusaders, who left a beautiful **subterranean city** with gates, towers, tunnels and **secret passageways** to the Arabs who rebuilt and fortified the city in the 18th Century.
